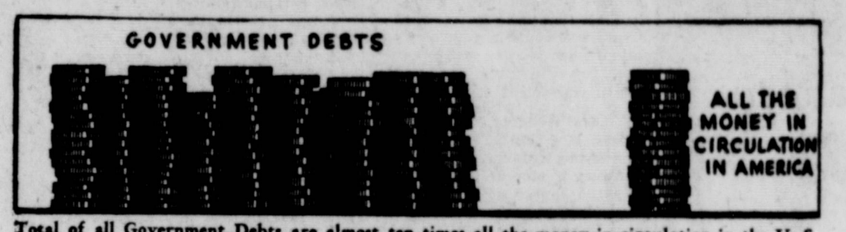
Four NORMANDIES would be sunk by the very weight of the gold equal to the Federal Expenditures of the last eight years.



Total of all Government Debts are almost ten times all the money in circulation in the U. S.

All incurred Government Debts today will exceed $65,000,000,000. It is more than $90,000 a day, every day since Christ was born. It is 40 billions more than all the known gold in the world.

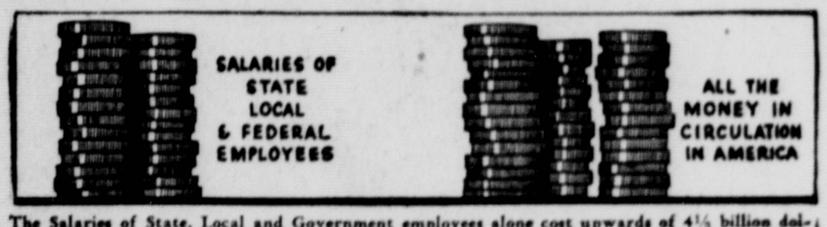
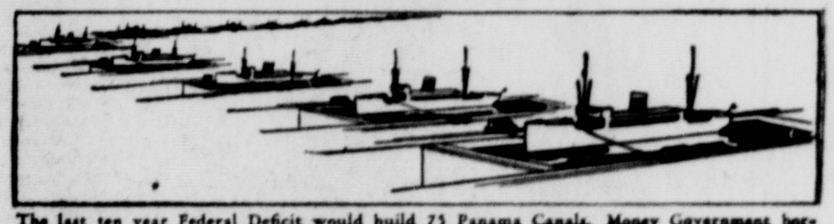
Federal Expenditures for the last ten years would cover every roof — sidewalk — street and parking lot in New York City with $10 bills.



The Salaries of State, Local and Government employees alone cost upwards of 4⅓ billion dollars a year, about two-thirds of all the money in circulation in America.



The last ten year Federal Deficit would build 75 Panama Canals. Money Government borrowed and spent for what?

Government Spending is money that MUST BE PAID BACK BY OUR ABILITY TO PAY TAXES. It is *spending today what we have to return tomorrow.* The worst of it is...that Government has wasted—billions—in the last few years—now we are unprepared in our greatest national emergency—we paid our taxes and only those in office are responsible for this catastrophe.

Nominate and elect only—wise, capable and intelligent men to represent us—who will work for and preserve the fundamental principles upon which this—THE GREATEST OF NATIONS—was founded and has grown to its present unparalleled position today.
